

Action Management System

Understanding your "Business DNA"

is the AMS platform for your business success

^^ ^^ ^^ ^^ ^^ ^^ ^^ ^^ ^^ ^^
This is a Business DNA

What do our Clients think?

"The AMS system has really helped my business improve the way our staff works together. The Job 5x5 approach is including all staff in the way our business does things and with the Business DNA they can see the big picture and how our business relies on them and other staff. The direct availability of business knowledge is breaking down communication walls so we all do things the same way."

John Paine
Managing Director

Danaher's Timber
and Hardware.

- Determine the critical operational actions
- Assess the risk profile of all key operations
- Identify the real accountability of key people

Clarify your total business operations in 48 hours

1. Rapidly create a unique and simple "one page" view of all business operations and **understand the real risks** that are inhibiting your business success.
2. Establish which operational "actions" are of **most value** to the business.
3. Focus quickly on the essential operational areas that are **critical to improve**.
4. Clarify the specific **personnel who are accountable** for all key operational areas of the business.

"Business DNA" maps the best improvement path

- Improvement **starts** with an understanding of your Business DNA → → → → →
- Your Business DNA becomes the **platform** or foundation for systematic improvements
- You then take the **path to improvement** that yields the most value.

- There are **4 key paths** to Business operational improvement:
> **people**
> **process**
> **projects**
> **actions**
- Use your Business DNA to select the improvement path that is of **most value**
- Underpin with **knowledge**.

The "Business DNA" increases understanding of the business by all staff & a platform for success

- Simple and fast to Implement.
- Clarifies accountability and aligns both staff and management expectation
- Fixed low-cost implementation in two half-day workshops over 48 hours.
- Creates a common understanding of the business for all employees
- Reduces business complexity
- Encourages immediate pro-active staff interaction with management
- Produces a simple "one-page" graphical view of the entire business operation
- Creates pro-active contribution by everyone
- Creates transparency to all stakeholders
- Identifies the most appropriate pathway for optimal improvements to the business
- Produces a simple platform and logical framework for the business strategy
